

Ferromatik Milacron India's New Milestone - Dispatch of 7001st Injection Moulding Machine
Ahmedabad, January 28, 2013

Leading Injection Moulding Machine Manufacturer Ferromatik Milacron India has set up a new Milestone for Injection Moulding Machinery Industry by handing over its **7001st Injection Moulding Machine – CPVC Line 275 T** on 28th January, 2013 at Ahmedabad.

Ferromatik Milacron India (FMI) has achieved this greater height due to its Innovative Solutions to keep its Plastics Injection Moulding Machine customers ahead in this competitive arena. Also Product development is a continuous process at FMI to assist its customers in reducing their overall per piece cost of product & Energy Consumption and thereby increasing their productivity & Reliability.

“Meeting Customer Demand on Time” and “Working Together for Success” is an important part of FMI’s Growth Strategy for Success. Manufacturing Capacity Growth is another focal point at FMI which has resulted into shorter time to manufacture every 1000 numbers of Machines.

Ferromatik Milacron India (FMI) is proud to be associated with all its valued customers & respects them as a partner in its success. FMI value their patronage & pray for mutual association to continue for ever.
